
THE OBAMA BIRTH CERTIFICATE IS A FAKE!!

Jay McKinnon, a self-described Department of Homeland Security-trained document specialist, has implicated himself in the production of fake Hawaii birth certificate images similar to the one endorsed as genuine by the Barack Obama campaign, and appearing on the same Daily Kos blog entry where the supposedly authentic document appears.

The evidence of forgery and manipulation of images of official documents, triggered by Israel Insider's revelation of the collection of Hawaii birth certificate images on the Photobucket site and the diligent detective work of independent investigative journalists

OH yes. :laugh:

I wonder why NO network interviewers have asked him why he's knowingly allowing a forgery to be passed off as his birth certificate. He knows its a forgery, and yet he hasn't debunked it. He would have known it was a forgery the instant it was posted.

And yet, I have heard nothing in the media anywhere about the forgery. I'm half tempted to GO to an Obama rally, and ask him out loud.

"Why did you forge your birth certificate?"

I'm no lawyer but essentially, being complicant in the forgery makes him just as guilty, I assume. Just the act of forging it must also be against the law. Where is the FBI on this? know if I was stopped, and they found a forged certificate, even if I never used it, just forging an official state certificate would have to break some kind of law.

He has two choices at this point, and both of them hurt him.

- 1.Admit it's a forgery and he knew.
- 2.) Admit it's a forgery and he didn't know.

The first hurts him for obvious reasons. The second wouldn't be believed by anyone. And even if it was believed, how can a guy be trusted to know what enemies will do if they are unaware what their own staff did do.

And by my own prediction - if McCain gets 5 points on him, he'll go into a freefall.

The only thing that needs to happen is SOMEONE ASK point blank, on national television!
