
THE CREATION OF AN ANTI-ISLAMOFASCISM MOVEMENT

This thread discusses the Content article: THE CREATION OF AN ANTI-ISLAMOFASCISM MOVEMENT

Just as Mel Gibson produced "The Passion" in Aramaic (with subtitles) and verbatim from the New Testament. Our western world can produce "The Prophet" (or "The Prophet?????")

The Koran can be used verbatim and Mohammed can be portrayed as a shadow figure or a voice from behind a curtain (like the Wizard of Oz).

This can be a Lawrence of Arabia type epic. But all truth....no spin. Just like in the Madrassas.

The Imams and the 'Arab Street' will have a cow over this (or better yet ...a SOW). Let them go insane. We need to accelerate the crisis of Faith in Islam.

Dr. Jack and Mr. Baldwin- you claim not to be experts but you sound like experts here- this was great. Those who do not understand history (Democrats) are doomed to repeat!

This type of movement should have a large part of its agenda to educate the younger (conservative) generation of the evils of Islamic Fascism. They will be the ones that will endure the consequences of inaction.

This movement will have a tough go in the beginning after the last election. The older generation stuck their heads in the sand.

Your comments on the Chinese may be most prophetic: the Chinese may be the ones needed to save Europe.

Thank you again.

You must also expose the link between the radical Left and the Islamic terrorists such as outlined by David Horowitz in his Unholy Alliance .

Both the leftist and the Muslims want to see America brought low for their own reasons, and they both work hand-in-glove for that purpose.

Why do you think the ACLU is really against the NSA wiretapping program? It has nothing to do with protecting Americans from government abuse. For if that were the case -- protecting citizens from the government -- the ACLU would be busy full time defending Americans against the IRS.

No, the true objective of the ACLU is to weaken America's intelligence effectiveness.

This is also why the Left is against missile defense. Their arguments that Star Wars is not technically feasible is bogus. The Left fears that missile defense is effective and will protect America; that is the reason the Left -- and that includes the Democratic Party -- is against it.

Sad to say, another arm of the Left is public education. Here grassroots efforts must be started to ridicule and purge multiculturalism from the schools .

When this obnoxious Fifth Column is exposed for the traitors they are, then real progress can be made against the Muslims.

Roger Baldwin was the founder of the ACLU. He was an avowed communist. The goals of the ACLU are the same as the goals of the American Communist Party. You can read more at Roger Baldwin and the American Civil Liberties Union.

For a list of all of the stated communist goals of the American Communist Party, simply Google it under "Congressional Record 1963 Communist Goals." Yes, it really is in The Congressional Record.

Not only does the ACLU attempt to achieve these goals in court they also attempt to enhance the party of the Left and of the anti-Christian organizations.

It is important for there to be a real grassroots component to this. Since the Republicans took power, everything has seemed to come from Washington. Ordinary people are frustrated with our lack of will to win both here and abroad and many would like to do something, but have no outlet; many feel they are held in contempt by conservative leaders. I have recently heard of two people's different plans to start "grassroots" groups: Newt Gingrich and Tom DeLay. While both have admirable qualities, I am sure their groups, if they come about, will be highly centralized and be mostly vehicles for the agendas of their leaders. But fighting Islamofascism needs to be the job of everybody. If there are meetings, efforts should be made to bring in people from diverse areas, vocations, social classes, and even political orientations. The idea is to get people to understand that we are on a war footing, and that needs to involve everybody.

What Needs To Be Done?

simple...

- 1) Have George Bush rescind his statement that Islam is a Religion of Peace.
 - 2) Prosecute the Iraq war to win it. Start by taking out Mookie.
 - 3) Pray as hard as we can in the face of the Mooslim tsunami.

Gentlemen,

Your proposal for the creation of an anti-Islamofascist movement is the best idea I have encountered concerning our new fight to preserve freedom and western civilization. You have my full support. To launch my support for this movement I have joined your website and will be donating money to the "Back to Jerusalem" missionary.

Dr. Jack & Steve: Count me in. I recently started my own Web site designed to get ordinary Americans more engaged and involved in speaking up for America. A large part of the content is aimed at alerting people to the true nature of the threat we face from the Islamo-fascists. We have to get grassroots momentum built up that will force the elites in Washington to face up to their responsibilities -- win the war on terror and control our borders. Those interested can visit www.theforgottenstreet.com. It's free and a commitment I have made to speak up for what's right about our country. You can depend on me to continue to slam the Islamo-fascists and their fellow travelers here in America and around the world. J. C. Hawkins Saint Augustine, Florida

I agree with Judy Warner that there has to be a really grass roots component to this.

The grass roots appeal is needed in order to galvanize those American Conservative minded individuals that exist in the Democratic side; those other Lieberman's who have not been expelled but are growing increasingly frustrated.

Karl Marx was the academic icon of Soviet totalitarianism and once stated "Religion is the Opiate of the people". I wonder weather or not we missed something.

After all we in the west would assume unthinkingly that opium is a banned substance. Therefore we would understand Marx indicating that religion/opium is to be banned. However if the Old Soviet now being resurrected under PUTIN is still yearning to dominate the world then perhaps Islam (a religion) is the prescribed drug to induce the people into the soviet vision of a One World order/government; albeit with a controlled substance/religion of a type that forces subjugation. A religion that when prescribed to the appropriate areas of the world body will provide the change desired.

Hitler too wanted world domination. He rallied his people around "lets get the Jews". I have trouble with the idea that Islam is really so disjointed. Islam has a focus that Moslems around the world either embrace or remain suspiciously silent about. Like the Nazis and Hitler before them Islam has a rallying cry of "lets get the Jews". Even today the so called atheistic former Soviet is less than accommodating to religious Jewish people. In the very early 1990's Russian encouraged/forced the departure of over 1.4 million Jews. Soviet history shows they have always included the Jews as another religion to be slowly exterminated. Islam on the other hand of all religions seems to have more in common with Communist or National Socialist goals than with any other type of political culture.

Getting back to the grass roots appeal - That is the only way that the west can survive.

We need to find persons with ability such as absent Congressman Larry McDonald (D-GA) who was perhaps the most influential chairman of the grass roots John Birch society that ever led the organization. John Birchers were patriots, volunteering in the fight against Communism. Larry Macdonald was also one of the more insightful critics of Jimmy Carter's thinking even though he was a Democrat. Grass roots appeal in the West truly was the greatest fear of Communism - really how do you control the zeal of patriotic volunteers? How do you control the freedoms of Christianity? The answer seen in the Regan years was that you couldn't control it. Islam knows it has a way of control.

The 1992 meeting of the Spring Session of NATO was the first NATO meeting in History at which all of the former Soviet Satellites sent representative. At the various forums for the four-day event these delegates all echoed the same message. Each said that under the Communists they had experienced "Spiritual Deprivation". These comments seemed to fall on deaf ears. What was not recognized by most of the NATO members was that these representatives of the former soviet's satellites had equated the materialism and economic success of the west as being the rewards of Christianity or true religious freedom. To the largely humanistic membership of NATO the term "Spiritual Deprivation" was not truly understood. Sadly the humanism of Europe and Liberal minds of the west has in it a Spiritual vacuum that

Islamic Bullying (albeit the Religion of Peace) is now capitalizing upon.

Marx may have said Religion is the opiate of the people but remember controlled/ banned drugs can be prescribed with great effect. Islam is such a drug. It has become advantageous to Mr. Putin along with several others to administer it to the body politic world wide.

One of the quickest ways to expose and marginalize Islam is to do things like the cartoon incident, and several movies like the one suggested, ANYTHING that will cause Muslims to riot in the streets. This will show just how fanatical they are and help accelerate the process of exposing them for what they are.

One idea I have is for an organized block of conservative lawyers to inhibit the progressive assault on Christian principles in this country and beyond. A dedicated group with the clout, revenue and persistence to combat the siege we are under. Let's encourage some of these legal patriots to combat ISLAMOFASCISM at every turn.

Who in government will pursue the tax relief of mosques that promote hate of the west?
How is it that Sharia can be promoted as Islam the religion of peace protected, while "In God We Trust" has be relegated to the edge of a new dollar coin by the treasury?

Is this not the beginning of a grassroots movement here to combat what Jack and Steve have nobly set out to accomplish?

Sirs, present and accounted for:-}
