This thread discusses the Content article: HALF-FULL REPORT 051608

I agree with Dr. Wheeler that Christianity in Europe still has a fighting chance. All limpicks has to be put were they belong and example of Roman Centurion, who said " Domine non sum dingus..." need to be restore as a prudent example.

Glass almost empty.. or just a slow news week (politically)? I'm going to be on the lookout this week for good news. One good thing - The bitch is gone.

It's been a tough week for us that is for sure. I am looking for it to be a pivot low:silly: :side: :)

It is amazing to see in these pictures the never ending war between Christianity and Islam.

Hey! Dr. Wheeler did not mention anything about Hildabeast:huh:

Dr. Wheeler, yet another power house article. Concerning some Moslem's sudden 11th hour outrage about old Christian art that illustrates the historical clash between cultures, may I ask them most rudely-

1.) Are you ready to condemn the endless stream of slander and libel gushing forth from Islamic extremists against Christians and Jews? And...

2.) We live in a free society, so we don't cleave to the notion of beheading anyone who offends our beliefs. But could you at least show some civilized sympathy to Christians and Jews who are attacked by the trendy overgrown adolescents of the Art World with such "artistic triumphs" as a portrait of the Virgin Mary in elephant dung, or "artistic" photographs of statues of Jesus Christ and Pope John II immersed in urine entitled "Piss Christ" and "Piss Pope" respectively. NO, we are NOT asking for repression of speech or expression, just a simple expression of indignation at a breach of good taste.

Funny, I'm not even religious, but I felt compelled to write the above.:blink:

It's funny, but every time I have looked at Osama bin Obama...in the back of my mind was the unspoken question about the 'orientation' thing...

I often have thought his 'appeal' was due to his total lack of testicles & testosterone.

I guess that's why the Palestinian's and Hamas, etc. are backing him for POTUS, (i.e. his Utterly 'Non-Threatening', "Gelding Like" nature & personality...).

Hmmm, which brings up another question:

IF "Reverend Wrong" was toted out to vouch-safe for Osama bin Obama as being a bona fide Christian, (and therefore NOT after all a Moslem)...what does all this say about THAT issue?

Is it time to revisit his "Religious Orientation" question again?

Jack- thanks for salvaging some good news out of this past week which was tough after McCain spoke in OR and the court spoke in CA. Yes the voters will awaken again in CA and pass a constitutional amendment to shut the door to this terrible attack on marriage. The voters in OR are too far left.

Obama looked like a rank amateur responding to Bush. It was not long ago that Obama's position on negotiating with the bad guys would have disqualified him for the Senate.

The bigger (and better) issue with your report on Europe is that Christians are waking up to the "religion of peace" and pushing back.

Jack, the HFR is my absolute favorite especially after listening during the week to the wimps in the MSM whine about the "recession" that doesn't exist and other various predictions of doom. The worse they make the country look the better the chances (they think) for the treasonous Dems. I noticed though that this week you REALLY had to struggle, for good reason...make that reasons. I'm impressed you were able to at least come up with one or two tidbits. I've wondered about Obigot ever since his "ever charming" (blegh) wife, at the very beginning of his campaign, berated him for his "stinky morning breath", his inability to load the freaking dishwasher or make the bed. Obviously liberal men are used to their wives sneering at them in public but you can bet that no husband worth his testosterone that I've ever known would have a wife like that for very long. That is, unless the wife is a "beard"....

Now, some of the posters are overjoyed thinking that the PIAPS is gone. Good luck with that, guys. If you think she's gone you haven't followed the PIAPS for very long. Never, EVER, EVER underestimate the Clintons. They've been "gone" MANY times prior to this. Sorry to burst your bubble but "it ain't over until it's over". Which is probably why Jack didn't even bother to mention her.....yet.

Thanks again Jack for the HFR. I especially thank you this week as it must have been agony trying to get this one out !

Obama\'s Gay Lover Files Lawsuit

The Smoking Gun

Slandorous Kook: I'm a Slander Victim

Man sues Obama, Dems over response to his tawdry sex-and-drugs tale

FEBRUARY 14--Ratcheting up the crazy, the Minnesota man who last month posted a YouTube video in which he claimed to have engaged in a sex-and-drugs party with Senator Barack Obama has filed a federal lawsuit against the presidential candidate and the Democratic party, charging that he is being subjected to a vicious slander campaign. Larry Sinclair contends that he has been unfairly targeted after surfacing last month with claims (entirely unsubstantiated, of course) that he "personally engaged in sexual activity and personally used illegal drugs in November 1999" with Obama, then an Illinois state representative.

I watched the Trinity of Hell video (on the TTP Video Gallery) last night. It was a set of extraordinary claims about Obama, Wright and Winfrey.

This morning I tried to view it again through the Video Gallery. I could not access it!

Is this a "technical" problem or has the Trinity of Hell been excised?

If I may express a humble opinion, if that video has been excised it's just as well. The preacher in that clip comes across as being as much of a loopy loon as Jeremiah Wright. It would be better if the TTPN site didn't give the impression of endorsing such a wild and crazy rant.:dry:

Julius --

We've been experiencing technical difficulties with the entire video gallery and all the videos on the site. It should be fixed soon and has nothing to do specifically with the Trinity of Hell video. We are not endorsing this at all. Manning is loopy, no doubt. We are reporting this, informing TTP'ers about it, for it is news when hundreds of thousands of people are viewing this thing and affecting how they perceive Obambi.

Good that you made the point clear, Sir. But you can just imagine the great high pitched WHINE from the Obama camp when this thing is more widely distributed. It's the Vast Right Wing Conspiracy again !!!! (Cue for sobs of indignation) Considering the muck that the Democrats themselves are capable of hurling, it will be the ripest hypocritical swill of course. But that's Politics.

There's a couple there that look like better candidates (character wise) than Obama

I could handle that crowd a hell of a lot better than having to listen to that half smart, bitter, quick to bitch, wife of his.

The two guys on the top left look a little ignorant. And yellow dress lady looks like they better keep her away from a microphone at all costs.
