

Wheeler Expeditions
Serengeti Birthing Season Luxury Safari

Africa's Greatest Unknown Safari

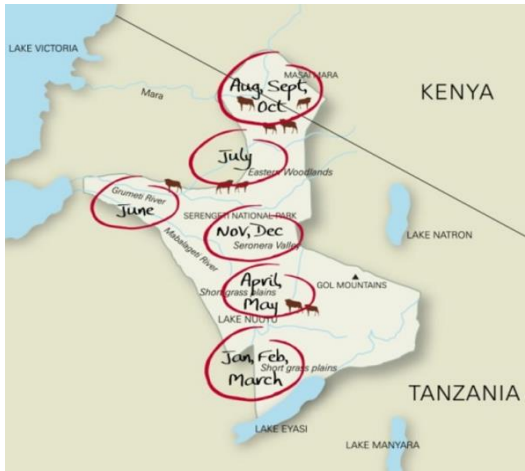

Wednesday, March 3 – Friday, March 12, 2021

Designed & Led by Jack Wheeler

Africa's Greatest Wildlife Extravaganza

The **Serengeti Migration** is world famous, when the great herds of wildebeest, zebra, and gazelles are strung out mile after mile migrating from Tanzania's Serengeti to the Masai Mara of Kenya from May through July. The migration is circular, starting in October, the herds return.

But return to where? And from where do the great herds start the cycle anew? The answer is *the Short Grass Plains of the Serengeti's far south*. It is here where, from January through March, over a million wildebeest congregate en masse as you see in the photo (*above right*), not strung out over a hundred miles. For this is their *Birthing Season* when herds are replenished with new life.

This time of year, the Serengeti is the most green and lush...

We will be there at the ideal time for the *Birthing Season*. This March we will bring only 6 couples to see this extraordinary event. A Serengeti Birthing Season Safari is unimaginably spectacular. Over 8,000 wildebeest calves are born every day, along with thousands of baby zebras and gazelles. Nearby adults gather around the newborn to protect them from hordes of lions, leopards, and cheetahs on the hunt.

This is by far Africa's, indeed the world's, greatest wildlife extravaganza – yet it remains unknown to all but the most experienced African cognoscenti.

To be among them, we invite you to be a member of our *Wheeler Expeditions' Serengeti Birthing Season Luxury Safari*.

Our Luxury Safari dates are March 3 to March 12. Before we get into the daily details, first, let's learn more about what you experience. It's not only wildebeest babies in amazing abundance, but those of all of the Serengeti's iconic animals as well – zebras, giraffe, elephants, on and on.

Yes, all of those great predators as well... with their cubs.

The Birthing Season is an ideal time to learn about African animals – like how a leopard or a lion sets up a successful stalk.

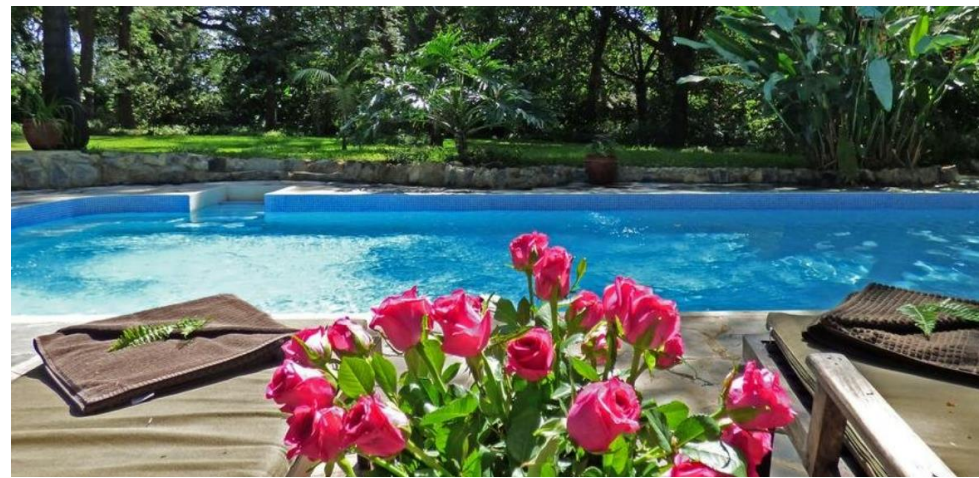

One of the more fascinating experiences you'll have is watching mommy cheetahs teaching their baby cubs to hunt – very small game at first of course. Then there's dad giving his attentive cub some important advice...

Wheeler Expeditions' Luxury Serengeti Birthing Safari

Arrival Day 1 – Wednesday, March 3rd Arrive in Arusha, Tanzania via Kilimanjaro International Airport. You will be met and transferred to the superb Rivertrees Country Inn. This is a wonderful place to get some pre-safari rest and relaxation.

Welcome reception and dinner at Rivertrees Country Inn with safari briefing by Dr. Jack Wheeler.

Our Luxury Tented Camp – March 4th – March 12th

Day 2 – March 4th – This morning our private chartered flight takes us to the southern Serengeti, where we transfer to our private, luxury camp.

This is the ultimate in a Serengeti safari -- a *private tented camp* – and that's what we have, a mobile luxury encampment set up just for us in a secluded ideal spot overlooking the Short Grass Plains. It is set up just for us in the middle of the African bush amidst the greatest wildlife spectacle on the entire planet – a lifetime, life-memorable experience that is simply unmatched.

This is luxury in the bush you have to experience to believe. Every tent has a full ensuite bathroom. We enjoy gourmet dining and open bar, we relax in a lounge with plush sofas, and staff catering to our every need.

Our Daily Schedule – March 4th to 12th

The schedule is designed around seeing the animals when most active. Usually guests enjoy 2 game drives each day. You have the flexibility to choose more.

Early Morning - In true safari style, each morning we are brought coffee or tea at dawn with a light snack.

Morning Game Drive – The animals are out as soon as it gets light. We embark on an early morning game drive to see and learn about different animals.

Breakfast - By mid-morning we're back at the lodge for a sumptuous breakfast.

Break - Free time to relax or go on a walking safari with a guide.

Lunch – The lunches are healthy, full, and delicious.

After Lunch – Relax and enjoy yourself. The bar is open.

Afternoon Game Drive – A great time to see the animals interacting, teaching their cubs, playing, hunting, and more.

Late Afternoon Sundowners – There is a tradition on safaris to watch the sun go down with a drink in hand. We get accustomed to this quickly!

Return to Camp and Break until Dinner

Dinner - We enjoy a delicious meal. Everyone shares what they saw and experienced on the game drives, shares photos, and stories.

Night Game Drives – An option if you are interested in seeing more.

Our Guides: the Hadza

Just how we learn and witness this is equally fascinating – for our safari trackers and guides are the world’s most extraordinary people. They are the [Hadza](#) – genetically and linguistically unrelated to any other people on earth.

They are “*the last of the first,*” having lived here as hunter-gatherers directly descended from our evolutionary emergence as *Homo sapiens* hundreds of thousands of years ago.

Their knowledge and understanding of Serengeti flora and fauna is breathtakingly astounding.

Game Drives **unlimited*

- **Morning Game Drive**
- **Afternoon Game Drive**
- **Night Game Drive**
- **Walking Safari** (anytime)

A Hadza Guide from whom we can learn on our game drives and walking safaris.

The Hadza people have lived in the Serengeti for over 50,000 years.

We will have 8 full days (and nights!) of unforgettable memories in this Africa Safari paradise.

On every early morning or late afternoon game drive or walking safari, we see more and learn more. These young animals are incredibly adorable!

On each game drive, we see and learn about various aspects of the animals' lives...

Our Hadza game rangers know which animals are *where* and they position us to get the best vantage points. With such an abundance of animals there is a lot to see and photograph.

We'll see a lot and *up close*.

You'll experience the serenity of Africa during our campfire sunset sundowners...

The last night is our Farewell Celebration Dinner...

We'll have so much to celebrate and remember forever.

Our Final Day – March 12th

Our flights out are in the evening, so we'll begin with our morning game, a hearty breakfast, and lunch as usual, then relaxing until time to fly out.

We must say goodbye – yet only for now, until our next adventure.

Serengeti Birthing Season Luxury Safari – BY INVITATION ONLY

Wednesday, March 3 – Friday, March 12, 2021

Designed & Led by Jack Wheeler & Rebel Holiday

All Inclusive Per Person: \$13,600. You can save \$2,000 each or \$11,600 per person.

Deposit \$5,600 per person upon registration.

Travel Details *(continued)*

The country is open to visitors.

International airfare: If you do not have a travel agent, contact us and we can make a referral.

Visas: Apply for your Tanzania eVisa online at the government immigration website:

<https://eservices.immigration.go.tz/visa> You will need 6 months validity on your passport and two blank pages.

Medical Requirements: Normal good health. No vaccinations required (except yellow fever only if recent travel to infected country). Re Covid: all that's required is no symptoms upon arrival.

Important caveat: *Every effort will be made to adhere to the itinerary above. Due to the vagaries of travel in this region and of adventure travel in general, the itinerary may be altered in any way necessary. Participants are expected to accept this, and to maintain a cheerful attitude on an adventure such as this.*

Contact us on your participation in this extraordinary adventure. jack@wheelerexpeditions.com or adventure@wheelerexpeditions.com.

About Jack Wheeler

Dr. Jack Wheeler, has been called the “real Indiana Jones” by the Wall St. Journal. He has traveled to every single country in the world recognized by the U.N (193) plus four others. He designs extraordinary expeditions that Wheeler Expeditions conducts to remote destinations around the planet.

His adventures began early. The youngest Eagle Scout in history at age 12, he climbed the Matterhorn at age 14, swam the Hellespont (LIFE Magazine 12/12/60) and lived with Amazon headhunters at 16, hunted a man-eating tiger in Vietnam at 17, and started an export business in Vietnam at 19. He wrote *The Adventurer's Guide* (New York: Mackay, 1975), described by Merv Griffin as “the definitive book for anyone wishing to lead a more adventurous and exciting life.” He has three “first contacts” with tribes never before contacted by the outside world: a clan of Aushiri in the Amazon, the Wali-ali-fo in New Guinea, and a band of Bushmen in the Kalahari. He retraced Hannibal’s route over the Alps with elephants; led numerous expeditions in Central Asia, China, Tibet, Africa, the Amazon and elsewhere, including 21 expeditions to the North Pole; and has been listed in *The Guinness Book of World Records* for the first free fall sky-dive in history at the North Pole. His company has conducted exclusive expeditions to dozens of countries across the globe for over 35 years.

Dr. Wheeler has had two parallel careers: one in adventure and exploration with *Wheeler Expeditions*; the other in the field of geopolitics after receiving his Ph.D. in Philosophy from the University of Southern California, where he lectured on Aristotelian ethics.

On a personal note, he married Ms. Rebel Holiday in St Tropez, France in 1986. She is a partner in Wheeler Expeditions and has traveled to 86 countries. They are the proud parents of two adult sons, Brandon Holiday Wheeler and Jackson Holiday Wheeler, both world travelers, expedition leaders, and big thinkers. They are also very proud of their creative and adventurous daughter-in-law, Raya, married to Jackson!

Jack Wheeler has traveled to every single country in the world...and can share in-depth on the geography, history, culture, and geopolitics as we travel... Join him on this expedition!

Rebel Holiday has traveled to 87 countries on 7 continents and has been leading expeditions with Jack Wheeler since the 1980's. We design and operate bespoke expeditions for the world's most discerning luxury adventure travelers. She loves cultures, arts, languages, cuisine, and most of all – people!
